

GLENN S. TAYLOR

EH&S Consultant

AREAS OF EXPERTISE

- EH&S Regulatory Compliance and Management
- Environmental Management Systems (ISO 14001)
- Hazardous Occupancy Building Code Compliance
- Emergency Planning and Response
- Decontamination and Closure Oversight

EXPERIENCE AND CAPABILITIES

Offering more than 20 years of experience in helping businesses implement cost-effective compliance programs that minimize risks related to environmental, health and safety (EH&S). Served as both a corporate EH&S manager as well as a specialized consultant to a wide-range of industries. Has a unique ability to produce results that synergize with client's core business and its employees, customers, and community.

- **EH&S Regulatory Compliance and Management**, including risk assessments and audits, program development, employee training, monitoring, corrective action and record-keeping to assure compliance with agencies such as OSHA, EPA, DOT, DOSH, DTSC, SWRCB, BSC, regional AQMDs, local CUPAs, fire departments, etc.
 - **Workplace safety** programs such as injury and illness prevention, new facility and equipment hazard assessments, accident investigation, industrial truck safety, cranes and hoist safety, hazardous noise, lasers, machine shop safety, fire prevention, flammable liquids and hazardous materials (business plans, hazard communication, building code compliance, control processes for inventory, storage and use) and contractor and construction safety.
 - **Environmental protection** programs such as energy conservation, hazardous materials unified programs, underground storage tanks, wastewater and storm water, air emissions, waste and scrap (hazardous, universal, industrial, recyclable materials), hazardous materials shipping, waste disposal contractor assessments, waste minimization (SB-14) plans, spill prevention, control and response plans, etc.
- **Environmental Management Systems (ISO 14001)** services that optimize and record performance in environmental stewardship that can be certified to recognized standards. Controls include EMS manuals, policies and procedures, record-keeping, monitoring and corrective action.
- **Emergency Planning and Response** programs such as the development of Building Action and Fire Prevention Plans, Consolidated Contingency Plans, SPCC Plans, Semiconductor Facility Emergency Plans, HAZWOPER and Incident Command training, onsite emergency team training and coordination, emergency equipment selection, etc.
- **Hazardous Occupancy Building Code Compliance** to evaluate existing facilities as well as provide design reviews and support for new occupancies. Services include local agency permit facilitation, construction management, tool fit-up and hook-up, and EH&S regulatory compliance.
- **Decontamination and Closure Oversight** of facilities, equipment (semiconductor tools, wet benches, laboratories, etc.), and waste management units (tanks, treatment and storage units, wastewater clarifiers, etc.). Services include closure of site permits, work plans (asbestos, lead, arsenic and other heavy metals, industrial solvents, petroleum products, etc.), pre-demolition hazardous material surveys and removal verification, etc.

GLENN S. TAYLOR

EH&S Consultant

CLIENT AND INDUSTRY EXPERIENCE

- **Aerospace & Defense:** AeroCalifornia Airlines, Continental Airlines, EG&G Rocky Flats, Hughes Technical Services, Gulfstream Aerospace Corporation, Rockwell International Corporation, The Boeing Company
- **Electronics & Semiconductor:** AXT Technologies, Global Communication Semiconductors, Instrument Specialties, SolarWorld Industries, Storage Technology Corporation, Xerox Corporation
- **Energy & Power:** El Paso Energy, NRG Energy, SolarWorld Industries, Southern California Edison
- **Government:** California Department of Transportation, Edwards Air Force Base, Long Beach Unified School District, Orange County Transportation Authority, Port of Long Beach.
- **Medical:** Dupont Pharmaceuticals, GE Medical Systems
- **Oil & Chemical:** Air Products, ARCO Pipeline, Ashland Chemical, Kinder Morgan Energy Partners, Exxon Mobil, Rohm & Haas, Southwest Chemical

PROFESSIONAL HISTORY

- **Taylor Professional Services, Inc.**
Owner/Independent Consultant
2004 to Present
- **URS Corporation**
Senior Project Scientist
1998-2004
- **Hughes Technical Services Company**
Safety, Health and Environmental Affairs
1996-1997
- **Storage Technology Corporation**
Corporate Environmental Coordinator
1992-1996
- **EG&G Rocky Flats, Inc.**
Principal Engineer, Permitting and Compliance
1990-1992
- **Rockwell International Corporation**
Lead Environmental Engineer
1988-1990
- **McLaren Environmental Engineering**
Environmental Specialist
1987-1988

EDUCATION

- **M.S., Environmental/Occupational Health Science**
California State University Northridge, 1989
- **B.S., Environmental Biology**
California State University Northridge, 1987
